Winterthur: Course 1
Interactive Training Strategies

June 1 to June 3, 2015 (three days)
Sivasailam ("Thiagi") Thiagarajan
held in Winterthur Switzerland

Valencia: Course 2
Thiagi’s Tools for Intercultural Training

May 18 and May 19, 2015 (two days)
Sivasailam ("Thiagi") Thiagarajan and
Samuel (Sam) van den Bergh
held as a pre-conference workshop
of SIETAR Europe in Valencia, Spain
Course 1: Interactive Training Strategies
Sivasailam (Thiagi) Thiagarajan
June 1 to June 3, 2015 (three days)

Target Group
This workshop is designed for trainers, instructional designers, facilitators, managers, and performance consultants. The workshop helps a wide range of practitioners, from newcomers to experienced specialists, to master skills and concepts related to different types of training games, simulations, and learning exercises.

Workshop Description
This workshop practices what it preaches. Participants learn new principles and procedures and apply them to creating and conducting different types of learning activities that meet their training objectives, audiences, and needs.

Five Features That Make Thiagi’s Workshops Unique
1. **Accelerated.** Thiagi keeps you totally absorbed with a unique blend of expert presentations, reflective discussions, and creative activities.
2. **Functional.** Thiagi uses the techniques that he teaches. Just by watching him in action, you pick up several effective strategies.
3. **Authoritative.** Thiagi knows what he’s talking about. His workshop is based on sound theory, validated principles, and solid experience.
4. **Practical.** Thiagi has spent decades in organizational firing lines. He empowers you with realistic tools and techniques for immediate use in today’s workplace.
5. **Fun.** Thiagi’s contagious enthusiasm, inclusive humour, and irreverent flexibility make you enjoy every moment of the workshop.
Day 1
An Introduction to the Design and Delivery of Learning Activities

Benefits
Do you have a love-hate relationship with games and activities?
Relax! This workshop demonstrates how to encourage your participants to interact with each other, with the training content, and with you, the facilitator. You begin the design part of the session by exploring 60 different interactive strategies. You learn to rapidly create five of these powerful strategies. In the facilitation part of the session, you learn how to conduct these interactive exercises without losing control, wasting time, and being attacked by participants.

Objectives
- Experience, select, create, and modify these types of training games
  1. Openers (that set the right tone for your session)
  2. Structured Sharing activities (that tap upon the wisdom of groups)
  3. Interactive Lectures (that add interaction to reinforce expert presentations)
  4. Textra Games (that are built around reading materials)
  5. Jolts (that last for less than 3 minutes and provide powerful insights)
  6. Closers (that bring your session to a meaningful conclusion)
- Use flexible facilitation techniques that creatively blend such opposites as playfulness and seriousness, competition and collaboration, and action and reflection.
- Transform participants from hell to your supportive allies.
- Maximize reflection and insights through systematic debriefing.
Day 2
How To Design and Use Different Types of Training Games and Learning Activities

Can you count the benefits of using games and activities in your training sessions? Here’s a sample list: Games and activities attract and maintain the interest of the new generation that is entering the workplace in greater numbers. They cater to different types of intelligence and learning styles. They blend education and entertainment to keep participants engaged. They utilize the proven advantages of active participation. As they provide frequent opportunities for practice and feedback, they produce performance-based learning outcomes. They capture the advantages of teamwork and collaborative learning. They transform trainers into facilitators.

If you agree with all these statements but you are daunted by the delusion that it requires a lot of skill and time to design training games and learning activities, wait until you experience Thiagi’s framegame approach: How to design an effective training game in a matter of minutes.

Objectives

- Explain the key characteristics, advantages, and limitations of games and activities in corporate training.
- Identify the most appropriate type of training game to match the needs of specific performance objectives and participant characteristics.
- Experience, explore, design, develop, evaluate, revise, and conduct these types of training games:
  1. Board Games
  2. Card Games
  3. Improv Games
  4. Instructional Puzzles
  5. Matrix Games

- Master and apply additional principles and procedures for designing these types of training games:
  1. Closers
  2. Interactive Lectures
  3. Openers
  4. Structured Sharing
  5. Textra Games
Day 3
How To Design and Use Different Types of Simulation Games

Benefits
Can you provide real-world learning opportunities – without incurring the risks and costs associated with them?
Yes, you can – by using simulations. As simulation activities are very similar to on-the-job training, they ensure effective transfer and application of what you learn in the workshop to the workplace. Simulation games provide immediate and realistic feedback. They reduce the risk to the players. Any inappropriate decision or action during the play results in negative consequences – but only in a make-believe environment. Simulation games also provide opportunities for repeated practice. You can discover important principles and practices through trial-and-error experimentation.

Different types of effective simulation activities that focus on selected aspects of reality. This workshop provides you with skills associated with the design and delivery of a variety of simulation games.

Objectives
- Explain the key characteristics, advantages, and limitations of simulation games in corporate training.
- Identify the most appropriate type of simulation game to match the needs of specific performance objectives and participant characteristics.
- Experience, explore, design, develop, evaluate, revise, and conduct these types of simulation games:
  1. Action Learning
  2. The Case Method
  3. Cash Games
  4. Interactive Stories
  5. Production Simulations
  6. Reflective Teamwork Activities
  7. Roleplaying
  8. Simulations with Playing Cards
  9. Synthetic Cultures
  10. Training Devices
You Are in Charge!
Thiagi goes beyond paying lip service to these types of statements about adult learning theory:
- Adult learners bring a wealth of experience to the training session.
- Adult learners have specific needs and goals.
- Adult learners are capable of determining what and how they should be taught.

Thiagi practices what he preaches. Rather than repeat a canned program that is structured by a prepared set of PowerPoint slides, he empowers you (and your fellow participants) to dictate the scope and sequence of what is going to happen during the workshop. There are more than a hundred types of interactive strategies that Thiagi can demonstrate. However, your needs and preferences determine exactly which ones will be explored in detail. The learning outcomes listed above provide a feel for the workshop goals. However, the specific objectives for each workshop will be based on your goals, resources, and constraints.
This workshop is facilitated by Dr. Sivasailam “Thiagi” Thiagarajan.

Dr. Sivasailam “Thiagi” Thiagarajan is the CEO of Workshops by Thiagi, Inc. and a partner in van den Bergh Thiagi Associates GmbH. Both these organizations focus on helping professionals improve their performance effectively and enjoyably.

Internationally recognized as an expert in active learning, Thiagi has lived in three different countries and has conducted training workshops in 24 more. He has worked with more than 50 different organizations in high-tech, financial services, and management consulting areas. Thiagi has been the president of the North American Simulation and Gaming Association (NASAGA) four times and of the International Society for Performance Improvement (ISPI) twice.

Thiagi has published 40 books, 90 games and simulations, and more than 200 articles. He currently writes an online newsletter, Thiagi GameLetter.

This is what several experts have to say about Thiagi’s special talents in designing and delivering training games and learning activities:

- **Glenn Parker**, author of Team Players and Teamwork: “Quite simply, Thiagi is the most prolific and creative designer of games and simulations in the world.”
- **Mel Silberman**, author of Active Training and 101 Ways to Make Training More Active: “Thiagi’s training games are always ingenious, easy to conduct, and open to several learning points.”
- **Steve Sugar**, author of Games That Teach: “When I want to create a learning environment or produce a thoughtful discussion, I turn to Thiagi’s games.”
• **Andy Kimball**, President of QB International: “There are two types of training-game designers: there is Thiagi and there is the rest.”

• **Bill Matthews**, Trainer and facilitator: “Thiagi’s games make me look good.”

Target Group

The workshop is designed for participants who work in the field of intercultural training.

Workshop Description

The two facilitators practice what they preach. Rather than deliver a canned program that is structured by a prepared set of PowerPoint slides, they empower you (and your fellow participants) to determine the scope and sequence of the workshop.

The workshop will strongly incorporate individual needs of the participants. The specific topics explored and the activities conducted will be based on the participants' choices before and during the workshop. A pre-workshop questionnaire will help to establish the initial preferences.

Thiagi and Sam will also share their ideas and experiences on their field-tested tools for intercultural training.

Benefits

Participants learn to facilitate, analyze, and improve Thiagi's Tools that work in the intercultural field. The activities include simulations, games, and other types of training activities created by Thiagi; some tools are adaptations by Sam. Thiagi and Sam will also provide consultative advice and feedback on interactive intercultural training activities that you are currently using or planning to use. Participants will leave the workshop with more tools and full of ideas how to adapt and transfer new activities for their own purposes.

Sam:
Samuel van den Bergh is professor for Intercultural and Diversity Management at Zurich University of Applied Sciences, Switzerland, and president of van den Bergh Thiagi Associates GmbH. Educated in Zurich and Berkeley, Sam has trained hundreds of business leaders and MBA students on cross-cultural and diversity management. He was for example a senior cross-cultural trainer for the Swiss Ministry of Foreign Affairs for more than ten years.
Interactive Training Strategies is one of the most inspirational courses I have ever attended. The course inspired me to change the complete outline of the trainings I held in Revenue Management. What would have been a time-consuming task actually turned out to be quite easy as I only had to put most of what I learned during the three-day course into action.

**Annemarie Gubanski**  
Owner and Consultant, Sweden

Thiagi’s course gave me new concrete tools to use right away, and inspiration to continuously improve my own existing training programs and conference concepts.

**Ann Hansen**  
anlhansen concept+competence, Denmark

I’ve received not only very concrete games, but also the structure and practical techniques to design appropriate interactive techniques for all kinds of situations. I feel more complete in my profession!

**Thea Draijer**  
Draijer Management, Netherlands

What is most fascinating is that it is absolutely easy and feasible to apply what we learned in this clinic to our later projects due to the facilitators’ attitude of focusing on solutions rather than on problems. They did this in a playful way creating a relaxed and happy atmosphere for all participants.

**Manja Grote**  
Visiting Professor, Qingdao, China

We hit the ground running with an introductory game and didn’t stop gaming throughout the course. Lots of fun and lots of ideas which I have already used, modified and had fun and success with in my courses ... even rescheduling my own training two days later so as to incorporate the Thirty-Five Game as a feedback session. It worked like a dream.

**Eileen Küpper**  
Lecturer, University of Applied Sciences Bonn-Rhein-Sieg, Intercultural Communication Trainer, Germany

An exceptional, intellectual and amazing playful workshop ... Thiagi’s expertise, enthusiasm and humor create an ideal learning environment to share and experience new training techniques and methods. A must for facilitators, trainers and those looking for a fun, interactive way to teach.

**Patti Janega**  
Consultant, Torino, Italy
During my first day in Thiagi’s workshop I gathered ideas and material to substantially and immediately enrich two new business proposals I was preparing – and I remember laughing a lot. The second day was when I really learnt how to drive my clients with content generated by themselves or outside sources that I did not need to master myself – and again I laughed a lot. On the third day, I understood how I might let myself be driven by participants in my workshops – and there was yet more laughter. Three months later, I find myself reflecting to further enrich what was my most engaging learning experience ever – and, yes, I am still laughing!

Thiagi’s Workshop on Interactive Training Strategies in Winterthur was packed full of cutting-edge ideas to engage training participants in learning and retaining essential training goals. I was looking to find new ways to enliven the training sessions I conduct for diplomats and those participating in international negotiations. What I gained from Thiagi were a whole set of new interactive activities and methodologies for teaching these skills. What was unique about this workshop was that he taught us not only frameworks for activities that can be used in multiple ways, but also how to streamline and simplify the training design portion to include your participants in tailoring the design as you go – refoccusing “on the spot.” It was an amazing three days, and Thiagi brought out the best in our great group of participants from around the globe. Playing interactive games was never so educational and fun!

Thiagi’s training sessions leverage multiple intelligences and cater to different learning styles:

1. **Learn from experience.** Thiagi’s workshops feature his effective and enjoyable training games and learning activities.
2. **Learn through observation.** Thiagi practices what he preaches. You learn a lot just by watching him in action.
3. **Listen to interactive lectures.** Thiagi’s presentations are interspersed with interactive interludes.
4. **Read the materials.** Thiagi’s dynamic activities convert static documents into powerful training devices.
5. **Apply the techniques.** Thiagi’s job aids, tables, checklists, and game plans make it easy for you to implement his activities.
6. **Learn by doing.** Thiagi’s approach to activity-based learning ensures that you are able to use the techniques immediately.
7. **Learn by reflecting.** Thiagi uses effective debriefing techniques to help you reflect on your experiences, gain valuable insights, and share them with each other.
8. **Learn from each other.** Thiagi’s activities incorporate the power of mutual learning among collaborative teams.
9. **Learn from the website.** Thiagi’s website contains 200 ready-to-use training games and 2000+ pages of practical advice.
10. **Learn something new every month.** As a participant of Thiagi’s workshop, you receive a monthly online newsletter with new games and tools.
11. **Learn continuously.** Thiagi continues interacting with his participants through regular online activities.
